TOASTMASTER® DELUXE IRONS with STAINLESS STEEL SOLE PLATES

ADVANTAGES OF STAINLESS STEEL

Stainless steel sole plates are 2 to 5 times smoother than aluminum or coated sole plates—easier to clean, last longer. Toastmaster irons are engineered with just enough steam vents to give deep, penetrating steam. Large, special coated Al Clad aluminum water tanks prevent corrosion . . . steams for 30 to 35 minutes.

FOOLPROOF CONTROLS

Numbered nameplate lists fabrics requiring heat range position 1, 2 or 3. Set fabric and steam indicators accordingly. Heat is just right for the natural or synthetic fabric being ironed. Toastmaster engineering gives perfect steam control. You get steam only when you want it—and fabric selector makes it impossible to steam fabrics that should not be steamed. See-through window conveniently shows when water is needed.

All the advantages of stainless steel sole plates, plus comfort grip handles with thumb rests. Simple, accurate controls for all fabrics. Flexible cord lifts. Light weight.

Steam-dry iron Two-tone Avocado green handle. Change from steam to dry by moving steam indicator to off position.

MODEL 430—120V, 60 Cycle, AC only. 1200 watts. Shpg. wt. single carton. 3¾ lbs. Carton of 6, 23½ lbs.
